

Codes of Practice

The manner in which an otherwise compliant product is installed and operated can sometimes result in the product causing, or suffering, interference. This is especially so when the product is connected to other products (i.e. networked or assembled together to form a finished product). Codes of Practice are guidelines for suppliers and installers to minimise these effects.

Index of Codes of Practice

Ref No	Title	Issue No	Date
COP 001	EMC - Personal Computer Assemblies [81 kB PDF]	3	May 2004

Note: You will need to have [Adobe Acrobat Reader](#) installed to view and print this Code of Practice.
