

Radio engineering PIB 38

When issuing a radio licence certificate, Approved Radio Engineers (ARE) and Approved Radio Certifiers (ARC) must comply with:

the New Zealand legislation for use of the radio spectrum

PIB 38: Radio Licence Engineering Rules

The Ministry has published [PIB 38: Radio Licence Engineering Rules](#)

This document prescribes technical rules, makes recommendations, and provides other information relevant to Approved Persons when issuing a radio licence certificate (RLC) for a radio licence application. The document is intended to promote technically efficient spectrum use and to enable Approved Persons to avoid harmful interference between services.
