

2007 Spectrum Fees Review

Make a submission on the proposed fees

Which one of the three options do you prefer?

- A. Direct adjustment of fees based on unit costs (pure cost recovery)
- B. Variable adjustment across fee categories
- C. Even adjustment across fee categories (half way between the current fee and unit costs)

Why do you prefer this option?

Re: Amateur Radio service.
 Fees would reduce to \$75 inc GST and therefore more acceptable for the voluntary and charitable nature of Ham Radio

Do you have any other comments on fees or on the proposed new initiatives?

the option B. fees are too high for Amateur Radio, proposed.
 the fee should be \$10 to cover admin costs for each Amateur Radio Repeater, Beacon.
