

## Publications

### [A brief history of regulation of radiocommunications in New Zealand](#)

A report detailing the history of radiocommunications in New Zealand between 1903 and 2003.

### [A new era in radio spectrum management \[285 kB PDF\]](#)

This booklet details who we are, what we do and what clients can expect from us.

### [Annual reports and business plans](#)

Access RSM's strategic plans, annual reports and business plans.

### [Band expanders](#)

Information about FM band expanders in New Zealand.

### [Broadcasting](#)

Information about broadcasting services in New Zealand.

### [Business evaluation of RSM/RSPP: Final report](#)

This report summarises the findings of an evaluation of the radio spectrum management and regulatory activities undertaken by the Ministry of Economic Development.

### [Chart of radio spectrum allocations in New Zealand](#)

This chart shows in simplified form the significant primary radio frequency band usage in New Zealand.

### [Compliance](#)

Information about compliance for users of the radio spectrum and for suppliers of electrical and radio products.

### [Policy Documents \(Operational\)](#)

Also known as POLDOCs. POLDOCs specify the licensing policies for radiocommunication services and often reflect decisions made following public consultation.

### [Radiocommunications](#)

Information about radiocommunications services in New Zealand.

### [Reception problems](#)

Interference information and resolution guides for the public and radio technicians.

### [Spectrum Band Plans](#)

Information about spectrum band plans in New Zealand.

### [Standards](#)

Specifications for radio apparatus for various services.
