

## Electromagnetic compatibility flowchart

Does the product contain a radio transmitter?	yes
	no
Go to the <a href="#">Radio Compliance Flowchart</a>	
Is the product imported from Australia?	yes
	no
Does the product comply with Australian ACMA requirements?	yes
	no
Check the list of <a href="#">EMC standards</a> accepted in New Zealand. Is there an applicable EMC Standard listed?	yes
	no
The product may be outside the EMC requirements. Check with a <a href="#">testing laboratory</a> or <a href="#">RSM</a> .	
Does the product comply with an applicable Standard?	yes
	no
The product may NOT be used or supplied in New Zealand	
Power consumption < 6nW, or Spare Part, or Motor Vehicle, or NZ Defence Force	yes
	no
Check definition of <a href="#">Group 2 industrial, scientific and medical</a> . Is the product classified as Group 2 industrial, scientific and medical?	yes
	no
Must comply with <a href="#">Table 6, ISM frequencies</a> . Establish a compliance folder with a declaration of conformity, a product description and a test report from an <a href="#">accredited test body</a> . Label with <a href="#">supplier Identification</a> . Label with <a href="#">compliance Mark</a> . Product may then be supplied in New Zealand	
Check the manufacture's specifications of the product. Does it contain any parts listed in 7(a) of the <a href="#">EMC Standards Notice</a> ?	yes
	no
Further documentation not required. Product may be supplied in New Zealand. (Optional:- Establish a compliance Folder with a declaration of conformity and a product description. Label with <a href="#">supplier Identification</a> . Label with <a href="#">compliance Mark</a> .)	
Is it telecommunications terminal equipment for installation in customer premises?	yes
	no
Check definition of <a href="#">Group 1 industrial, scientific and medical</a> . Is the product classified as Group 1 industrial, scientific and medical?	yes
	no
Must comply with <a href="#">Table 6, ISM frequencies</a> . Establish a compliance Folder with a declaration of conformity, a product description, and a test report, or manufacturers performance specifications, or a certificate issued by another administration. Label with <a href="#">supplier Identification</a> . Label with <a href="#">compliance Mark</a> . Product may then be supplied in New Zealand.	
< 10 per year, or battery powered, or prototype for demo, or fixed installation?	yes
	no
Establish a compliance Folder with a declaration of conformity, a product description, and a test report, or manufacturers performance specifications, or a certificate issued by another administration. Label with <a href="#">supplier Identification</a> . Label with <a href="#">compliance Mark</a> . Product may then be supplied in New Zealand.	
Product may be supplied in New Zealand
