

Hello

I am a little late with this as I only found out about this 2 days ago.

Here in Canterbury our group have two beacons . ZL3TEN and ZL3SIX. These are not a radio club project. They have been on air for at least 15 years.

They are funded by less than 10 people. ZL3TEN is heard world wide and is the only South Island 28 MHz beacon. ZL3SIX being on 50 MHz is received in the Pacific basin

How you can put us in with the profit making users is beyond my comprehension.

We may have to consider closing down one or both if the fees go up, we have other annual costs to pay.

We are providing a service to the ham radio population and the radio propagation information beacons provide is of enormous value to us.

Thank-you Ross Johnson ZL3ADT
