Dear Radio Spectrum Management

Review of the Radio Spectrum Fees Framework (UNCLASSIFIED)

Your E mail to hadhog@clear.net.nz of 5th November refers.

The Incorporated Society known as National Radio for Te Anau Inc. wish to advise that we would dearly like to see the National programme broadcast to the listeners of the Te Anau being made available free to us as it is to almost every other listener within New Zealand.

As it is at present we operate our own satellite receiver and repeater with the establishment and operating costs met by our group.

We ask, why should we pay twice, once as tax payers then again by having to provide our own services?

After all, listeners almost elsewhere just take the broadcasts for granted without ever giving thought as to how they are made available.

Having operated since May 1998 we now feel it is high time your department treats us the same as for much of the bulk of the country, not as some poor back country relation.

We trust you will give our submission the due consideration it deserves.
