

Radio Spectrum Fees Framework Consultation Document Submission

Dear RSM Fee review committee ,

On behalf of NZ Radio for the Print Disabled Inc I would like to comment on proposed fee changes

For Non Commercial , Incorporated Society and Charitable Groups I have been concerned about fee increases for non -commercial Broadcast licences , fixed links and repeaters for some time

I would like to see fee reductions for Not For Profit groups and clubs

Community Non Commercial Radio Access Radio

Also volunteer organisations that use radio spectrum that provide safety of life and rescue facility often as volunteers

AREC / Amateur Radio  
Boating Clubs  
4 Wheel Drive Clubs  
Coastguard  
LAND SAR

Fees should be gathered from revenue based services ( commercial radio and tv , cellular providers , mobile radio providers ) but not the ( Not for Profit )groups

I hope you view this favourably in your review

Kind regards  
Steve Jepson
