### **RBA Feedback on Spectrum Outlook 2017-2021**

The RBA would like to thank RSM for the work in developing the 'Draft Five Year Spectrum Outlook 2017-21'.

While we have no specific feedback to make, we would like to reiterate our desire to work closely with RSM and government officials as you work through the outcomes of the consultation process on the future use of VHF Band III and other issues that affect the commercial radio industry in New Zealand.

The RBA has recently formed a new Technology Sub Committee who will be meeting quarterly and would like to extend an invitation to ministry officials to attend these and ensure any issues you would like to review with the industry can be tabled and discussed as required.

We look forward to working with you as you work through your plan.

Kind regards

A handwritten signature in blue ink, appearing to read 'Jana R.', with a large, sweeping flourish extending from the bottom left.
