Questions about the proposals in the discussion document

Options for annual licence fee changes

1	What do you see as the advantages and disadvantages of option one? Option one is simple, less work for your department and is financially affordable for Amateur radio operators like me. Please do not change the status quo or bring in 'Renewal fees' as this will force more amateur radio operators to leave the hobby!
2	What do you see as the advantages and disadvantages of option two?

This option two is more work for your department and is more expensive for everyone! It is much fairer all round if we stay with option one and just increase fee's on a CPI increase basis rather than forcing people to pay more on a renewal basis. This will only make all licences more unaffordable for everyone!

3 Which option do you prefer? Why?

Option one. More fairer for licence holders and less work for your department!

4 Is there any other option that has not been considered in this document? If yes, please explain this option in detail, including why it is preferable to option one and two.

5 What impact will the fee increase have on your business or entity?

It will make my hobby less attractive and unaffordable for elderly and those thinking about becoming Amateur radio operators!

6 How would fee option two impact the licensing decisions of your organisation or entity over the next five years?

It will simply be more expensive and detrimental to our hobby and Amateur organisations here in New Zealand.

Closing comments

7 Are there any other comments you wish to make?

Do NOT use option two!
